The statement of the Boston Banks for the last indications that the wasts of the South Am for its long depression.

We annex some particulars of the market more is detail, as follows:

Brown Sheetings. The chief makers of standard heavy Sheetings ask 142 25c., V yard, with a small stock on hand. Medium grades are held at 11 213 ic. Light Sheetings sell readily at 9 w 10 jc.

The stock of Drills in this country has become very much reduced, and the market is comparatively bare, and scarcely equal to the home demand, although the markets of China and the East are holding the largest stocks ever known. If the goods should not be re-shipped, which is scarcely possible, the fabric will advance materially.
We quote the market as follows:

Bleached Sheetings.

All low grades Bleached Sheetings, whether of \$\frac{1}{2}\$, or 4-4 style, are scarce and improving in price.

The fine goods counting from 80x80 a 88x100 are dull. and may continue so until the war is over. The di version of these goods from civilians who have be come soldiers is great, and tells on the market.

Printing Cloths. The nominal price for Printing Cloths has been as follows:

Some sales have been made at a fraction discount but the market is rampant. Prints.

The large sales to the Boston house have im proved the market for Prints, and many holders have withdrawn entirely.

There has been much more tone to the Domestic and Dry Goods market during the past week than we have previously reported. Some of the large jobbers are clearing the market of many styles of desirable goods, and the operations partake of the speculative character witnessed last Autumn.

We hear of purchases, by one house, exceeding one-half million of dollars, and of many other of more
